

2023 GRANTS REPORT

Introduction

The Friends of Niger grant program is designed to support locally identified projects which demonstrate community support, are likely to succeed, and have an enduring positive impact. After three years, the grant process has matured and is highly effective.

The hallmarks of our process are scheduled grant cycles, transparent criteria, and clearly presented forms and instructions. All unsuccessful applicants receive feedback on what we liked about their proposals and what would make their applications more competitive. Each successful proposal is assigned a Project Champion to act as liaison, facilitate communication, and provide any assistance needed to ensure successful implementation of the project.

Board members Mary Abrams and Alix Fedoruk co-chair the Grants Management Committee, which is composed of volunteers and board members. The Grants Committee recruited and managed 31 volunteers to review proposals and select grants for funding. Another 14 volunteers acted as Project Champions to facilitate the implementation of funded projects.

GRANT-MAKING	2023	2021 to present
Applications Received	62	142
Funds Requested	\$222,983	\$587,431
Volunteer Reviewers	31	85
Projects Funded	16	38
Total Funds Granted	\$63,281	\$158,090

Projects Completed in 2023

Women

Many grants were designed to benefit women, supporting the belief that helping women benefits whole families and communities. This year, five grants specifically targeted women as participants and beneficiaries.

In Niamey, a group of 30 recovering fistula patients were provided in-depth training in sewing.

Showing off new dressmaking skills

Trained seamstresses with their new sewing machines

All participants returned home with new skills to allow them to meet their basic needs. With additional funding provided by the Jane Huser Maxwell Fund and administered by FON, the women each received a sewing machine to take home.

Training in making soap and incense was provided to more than 30 rural women in Hamdallaye. By the end of the two-week training, several of the women were already planning to purchase raw materials and supplies to allow them to begin manufacturing and selling in the local market.

Hamdallaye women display soap and incense products

In the agriculture sector, projects to benefit women focused on gardening and sheep fattening. A garden project in Agadez empowered 60 women by providing seeds as well as basic literacy skills to enable record-keeping. Also in Agadez, 20 members of a women's cooperative were provided sheep to fatten and sell as well as training and support in improved animal husbandry methods.

Project / Organization	FON Contribution	Champion
Rural Vocational Training / DIMA	\$785	Amy Wilson
Sheep Fattening Agadez / APR EMITTI	\$4,658	Melissa Perera
Training and Empowerment of Women - Tchirozérine / TIDENE	\$4,917	Paige Pihl Buckley
Job Skills for Recovering Fistula Patients / DIMA	\$5,015	Amy Wilson

Health

Grant funds were awarded to help upgrade rural health facilities, to benefit whole communities.

Solar water system – Inwajoud, Dabaga

In the Agadez region, a remote health center serving 3,500 families set up a solar pump and piped water system to ensure the availability of clean water. Near Maradi, solar panels were installed on the Yekoua health clinic, providing 24-hour lighting for births and refrigeration of medicine. The project was made possible with matching funds from African Borderland Community Development Fund at Northeastern University facilitated by Bill Miles.

Solar panels – Yekoua Health Clinic

Project / Organization	FON Contribution	Champion
Health Clinic Water System / AFAA	\$2,326	Douglas Steinberg
Health Clinic Solar Power in Yekoua / Fed. Rayuwar Karkara	\$3,600	Alhassan Ali Souna

Education

Communities continue to demonstrate the value they place on education with projects to improve learning environments and provide support for students.

An innovative program employing older girls as mentors has provided school fees, supplies, and crucial mentoring to encourage more than 100 teenage and pre-teen girls in the Maradi region to stay in school and avoid early marriage.

Maradi area girls mentoring project

School gardens: education and nutrition

In Agadez, school gardens were developed and improved in two communities benefitting 270 students and their families. Grants in Tillabéri and Agadez provided basic school supplies and desks that show students that their efforts are important. In Aguié, latrines were built for middle schoolers to encourage attendance and promote hygiene.

Middle school girls welcome new latrines

Desks and school supplies

Project / Organization	FON Contribution	Champion
School WASH Aguié / Remember Niger	\$2,500	Mary Abrams
End the Suffering of School Kids / SEED	\$3,835	Ismaghil Ag Moussa
School Supplies and Materials Tchinzini / AFAA	\$4,156	Ismaghil Ag Moussa
My Sister, My Role Model / MICA & Expanding Lives	\$4,163	Leslie Natzke
Two School Gardens / Les Puits du Desert	\$4,794	John Baird

Community Conflict Prevention

A series of trainings, meetings and community engagement activities targeted women and young community leaders in the Makalondi area which has been experiencing social pressure and conflict from terrorist activity.

Conflict resolution training

<u>Project / Organization</u>	<u>FON Contribution</u>	<u>Champion</u>
Preventing conflict & strengthening social cohesion / ADAH	\$4,156	Douglas Steinberg

Ongoing projects

Malaria Prevention Niamey — Providing mosquito nets, medication, training to help prevent malaria in pregnant women and children in Niamey	\$980
Milk Cows Abalak — Increasing dairy production	\$4,775
Restoring the Dignity of Sand Carriers — Training and establishing women sand carriers in Niamey in new income generating activities	\$5,118
Poultry Production — Training and establishing women and youth producers outside Zinder	\$5,213
Sheep Husbandry Balleyara — Purchasing sheep and associated materials for 20 disabled women and training them in animal husbandry	\$5,486
Biocontrol of Millet Miner — Breeding and reintroducing an indigenous wasp to control millet boring insects in the Dosso area to increase yields (two grants)	\$7,360

Fiscal Sponsorship

FON supports other efforts in Niger that meet our guiding principles and criteria by providing administrative support such as money transfers. In 2023, there were six examples of this.

Niamey Youth Soccer — Youth Soccer League in Niamey sponsored by expatriates	\$1,650
Sewing Machines for Fistula Patients — Sponsored by Jane Huser Maxwell Fund	\$2,400
Solar Panels and Seeds — Sponsored by Joel Neuberger for the Village of Guéchémé	\$5,225
Microcredit — Sponsored by TCP Global, implemented by Potentiel Terre (3 grants)	\$33,000

Grants Selected For Funding November 2023

- School latrines for lycee in Tchadoua — MICA
